

# Nasal Continuous Positive Airway Pressure (CPAP)

GoodKnight™ 420

CPAP is the recommended form of treatment for those individuals who suffer from sleep apnoea. It is also useful for individuals who have tried all other treatments for their snoring but without success.

We are happy to supply patients with a machine but a Doctor's private prescription is required before we can supply any CPAP unit.

CPAP prices exclude VAT. A VAT exemption can apply in most cases.

The price of £465.00 includes machine, mask, hose, headgear and carry case.

The GoodKnight 420G provides Ultra-quiet care treatment for patients with obstructive sleep apnoea.

So small it fits in the hand.

It weighs just 760g.

The complete kit including carry case weighs only 1.4Kg.

Patient-selectable, ramp and start pressure helps user ease into sleep.

Easy to read display simplifies operation.

Separate meters track both compliance and hours in service.

Altitude compensation enables optional use in most geographic areas.

Enhanced blower provides stable delivery over a wide range of pressures.

Accessories (prices on application)

M-413950-02 Air inlet filter (cleanable)

M-413950-04 Air inlet filter (high efficiency)

M-213930-02 Battery cable

**Size:** 14.2cm x 19.5cm x 7.5cm (5.6" x 7.7" x 2.9")

**Colour:** Cream

**Part number:** M-113900-UK

**Warranty:** One-year

**Pressure Range** 4 - 20cm H2O in 0.5cm increments

**Ramp Function** 0 to 30 minutes (steps of 5 minutes)

**Ramp Start Pressure** 4 cm H2O to Treatment Pressure (patient selectable)

**Altitude Compensation** 0 to 2400 m ( 0 to 8000 ft) (patient selectable)

**Sound Output** Less than 30 dBA, 10 cmH2O at 1 metre

**AC Power** 115/230 volts 50/60 Hz

**DC Power** 12 volts

The treatment of choice for obstructive sleep apnoea.

100% successful for the 75% of patients who will adapt to the treatment.
